Prospectus Summary

This summary highlights information contained elsewhere in this Prospectus and may not contain all of the information you should consider before investing in the shares. You are urged to read this Prospectus in its entirety, including the information under "Risk Factors. Unless the context indicates otherwise, the words "we," "us" "our" or the "Company" refer to Title Starts Online, Inc.

Overview

This Prospectus relates to the offering of shares by Title Starts Online, Inc., a Nevada corporation. The Company proposes to raise a minimum amount of \$50,000 (the "Minimum Offering Amount") and an maximum amount of \$225,000 (the "Maximum Offering Amount") through the sale of a minimum of 200,000 shares and a maximum of 900,000 shares of Company common stock with a par value \$.001 (each a "Share" and collectively the "Shares") at the price of \$0.25 per Share (the "Offering") as more fully described in "*Plan of Distribution.*" Subscription funds will be held until closing by Synergy Law Group, LLC, as escrow agent, in an escrow account at Charter One Bank. The Report of the independent registered public accounting firm which audited the Company's financial statements for the year ended December 31, 2007 contains an opinion that there is substantial doubt about the Company's ability to continue as a going concern because the Company has no business operations, has negative working capital and minimal stockholders' equity. See "Risk Factors" beginning on page 7.

The Company

Title Starts Online, Inc. was incorporated under the laws of the state of Nevada on November 13, 2007. The Company's principal offices are located at 7007 College Boulevard, Suite 270, Overland Park, KS 66211. Our telephone number there is 913.832.0072. Our fax number is 913.747.3001. We are also in the process of creating a website which will be www.titlestarts.com. Information included on our website is not a part of this Prospectus.

The Company is in its development stage with no revenues to date. The majority of the activities to date have revolved around defining requirements from residential title abstractors in the Kansas City area to determine the value proposition of a consolidated title start website business. In the title insurance business, abstractors are required to research any and all encumbrances on specific properties which are in the process of being refinanced or sold. This search is completed by merging data from a variety of sources, some online and some in log books physically maintained by local governmental entities and private production plants. The research results are then compiled into a commitment of title insurance which is submitted to the entity requesting the information. The Company intends to develop a central repository for title starts and plans to deliver two categories of products - title starts and a title search template - along with a tips and tools area via the Company's website. The website will have the functionality to manage new title search findings based on unique user identification to facilitate order processing, to offer remote storage and minimize redundant data entry. Users will also have the ability to shop for existing title starts and utilize innovative search techniques to expedite their search. The Company's products remain in the developmental stage. The Company's next step is to conduct focus groups to test utility and function of the products. After the function and utility are established, the Company plans to market its product within the title insurance industry.

Mark DeFoor, the primary founder of the Company, is also a Director, President and Chief Executive Officer. Mr. DeFoor earned a Bachelor's of Business Administration (1993) and a Master's of Business Administration (1995) from the University of Missouri at Kansas City. Mr. DeFoor's previous experience includes the development of the National Association of Insurance Commissions Central Repository of Producer Agents as well as the operation, purchase and sale of several title insurance companies.

The Company anticipates that title abstractors will represent a significant segment of the total subscribers in this Offering. The Company's registration of the Shares with the potential development of a market to sell the Shares is intended to provide its investors with an additional incentive to become part of the Company. While the registration of its Shares is for the purpose of creating a public market, there is no guarantee that a public market will ever exist for the Company's Shares or that, if developed, can be sustained.

Risk Factors

You should carefully consider the risks and uncertainties described below and the other information in this Prospectus before deciding whether to invest in the Shares we are offering. The risks described below are not the only ones we will face. Additional risks and uncertainties not presently known to us or that we currently deem immaterial may also impair our financial performance and business operations. If any of these risks actually occur, our business and financial condition or results of operation may be materially adversely affected, the trading price of our common stock could decline and you may lose all or part of your investment.

Risks Related to Our Company

The report of the independent registered public accounting firm which audited the Company's financial statements as of December 31, 2007 expresses substantial doubt as to the Company's ability to continue as a going concern.

In the report dated April 24, 2008 of the independent registered public accounting firm which audited the Company's financial statements as of December 31, 2007, the independent registered public accounting firm expressed substantial doubt as to the Company's ability to continue as a going concern. Underlying the accounting firm's opinion are the absence of any business operations by the Company, its negative working capital position and minimal stockholders' equity. The notes to the Company's audited financial statements provide that continuation as a going concern is dependent upon the operations of the Company which in turn are dependent upon the Company's ability to meet its financial requirements, raise additional capital and the success of its future operations, and there is no assurance that the Company will be successful in accomplishing these objectives.

Purchasers may have difficulty evaluating the Company's business because of the absence of any operating history.

The Company was incorporated on November 13, 2007, and to date, we have been involved primarily in organizational activities. The Company has no revenue history, no operating history and has not delivered any products or product-related services to customers. Potential investors should be aware of the difficulties normally encountered by development stage companies and the high rate of failure of such enterprises. There is no guarantee that we will commence business operations or that our business operations will be profitable. For this reason, investors are encouraged to review the Company's financial information and prospects, to have discussions with representatives of the Company and to engage professional advisors to evaluate an investment in the Company.

If we do not obtain additional financing, our business will fail.

Our business plan calls for ongoing expenses in connection with the development of the business of the Company. We have not generated any revenue from operations to date. We may not be able to implement our business plan without obtaining additional financing. If this financing is not available or obtainable, investors may lose a substantial portion or all of their investment. If adequate funds are not available to satisfy our immediate or intermediate capital requirements, we will limit our operations significantly. There can be no assurance that such additional financing will be available to us on acceptable terms, or at all. The most likely source of future funds presently available to us is through the sale of additional shares of common stock, which could result in dilution to existing shareholders.

The Company has a lack of profit and uncertain profit outlook.

The Company has no history in operating its business on which to evaluate the Company and its prospects. If customers do not adopt the Company's products and services due to the Company's operating history, the Company's profits will be significantly and negatively affected. The Company's prospects must be considered in light of the risks, uncertainties, expenses and difficulties frequently encountered in this context.

If the Company does not generate sales in a timely manner, the Company may run out of cash.

The Company's business plan is dependent on sales and anticipates that such sales will commence in the third quarter of 2008. The Company will hire staff and incur recurring expenses and plans to increase staffing and expense levels in anticipation of revenues assuming proceeds from this Offering make such expenditures feasible. In the event that revenues do not occur in a timely manner, the Company will need to dramatically reduce costs and may run out of cash.

If the market chooses to buy competitive products and services, the Company will not be financially viable.

Although the Company believes that its products will be of commercial usefulness, there is no verification by the marketplace that the Company's products and services will be purchased by customers. If the market chooses to buy competitive products and services, it may be more difficult for the Company to be profitable and the Company's business would be substantially harmed. The Company believes that the purchase of its products is also highly dependent on perceptions of risk, financial viability of the Company, ability to provide related services and support, and other factors including brand perception, references, and commercial linkage between these sales and other products and services. If the Company is not able to manage these perceptions, it may not be able to meet its forecasts and projections.

The Company's competitors are larger and have greater resources, giving them the ability to utilize commercial practices that prevent customers from buying the Company's products and services.

The Company's competitors are larger and have resources greater than those of the Company; therefore, there can be no assurance that potential customers will buy from the Company, as opposed to the Company's competitors. If potential customers do not buy from the Company, the Company's business would be significantly harmed. Competitors may also have greater leverage and stronger relationships with their customers, as well as the ability to offer lower prices, which could affect the Company's ability to procure customers or cause customers to change vendors.

The Company's results may fluctuate significantly from projections.

The Company's anticipated revenues are based on projections, and results may vary widely from such projections.

The Company is reliant on senior management.

The Company believes that its success is significantly dependent upon the continued participation and collective skills of the executive officers. In addition, certain knowledge and skills possessed by executive officers and key Company employees may not be able to be replaced quickly or at all. Members of senior management are under no obligations to remain with the Company. If several senior management members do not remain with the Company, the Company's business would be significantly harmed.

The Company plans significant expenses for research and development.

The Company's market is characterized by rapidly changing technologies and evolving industry standards. The Company plans to incur significant research and development expenses intended to adapt and expand to this evolving industry and achieve competitive advantage. If the Company does not generate sufficient profit, the business could be harmed. If it is necessary to raise additional funds to pay for further research and development through the issuance of equity securities, the current stockholders would be diluted and their interests might become subordinate to the rights and preferences of the holders of new equity securities.

The Company has an uncertain ability to meet future cash needs.

It is likely that the Company will need additional financing in the future, either as a result of adverse developments, or as a result of rapid growth or volatility in business levels or business conditions. If such financing is unavailable, it could have a serious adverse effect on the Company's ability to survive.

The Company must develop delivery and support infrastructure to be viable in the market.

The Company is in an early stage of development, and if the Company does not develop the necessary infrastructure to support its customers, its business could suffer or fail.

The Company's business plan is highly sensitive to many factors, and thus Company performance is not easily predictable.

The title insurance industry is sensitive to many factors, including competition with larger companies, market demand, research and development expenditures, and the ability to stay competitive in the industry. Given these and other market factors, the Company cannot predict with certainty its short- and long-term performance and profitability. In addition, even if the Company achieves profitability, given these many factors affecting the Company's business, the Company may not be able to maintain profitability in the future.

If the Company does not manage growth effectively, the Company's business could be harmed.

Resource infrastructure and geographic expansion will be required to realize the Company's growth strategy. Operations growth will place significant demands on the management and other resources of the Company, which demands are likely to continue. To manage future growth, the Company will need to continue to attract, hire and retain highly skilled and motivated officers, managers and employees for:

1. Sales, marketing, business development and customer service;
2. Technical support, software development and integration;
3. Operational and financial management; and
4. Training, integrating and managing the growing employee base.

The Company may not be successful in selecting, managing or expanding its operations and markets or maintaining adequate management, financial and operating systems and controls. The Company may not be able to achieve desired geographic expansion without additional investment.

Experience of management may not be adequate to achieve projections.

While Company's officers have history and experience in the title industry, there is no guarantee that such experience will ensure that they are able to reach the Company's projections.

Any additional financing through sales of our common stock will result in dilution to existing shareholders.

We will require additional capital in order to achieve our business plan. Our most likely source of additional capital will be through the sale of additional shares of common stock. The sale of additional shares of common stock will result in dilution to our existing stockholders and will negatively affect the value of an investor's Shares.

Risks Related To the Title Insurance Industry

The title insurance industry is intensely competitive, and if the Company fails to successfully compete in this industry, its market share and business will be harmed.

The markets for the products and services offered by the Company are intensely competitive and characterized by rapidly changing technology, evolving regulatory requirements and changing consumer demands. Large companies may at any time attain positions of competitive advantage that the Company will find difficult to counteract.

There can be no assurance that the Company will be able to successfully compete with any current or potential providers of products and services competitive with those of the Company.

The Company's success depends, in part, on its ability to protect, develop and secure proprietary information and intellectual property.

Although the Company intends to pursue protection of its intellectual property, there is no assurance that such protection will be available or sufficient to preclude competition. Competitors may develop similar or superior products, software, business models and intellectual property. This could have serious impact on the ability of the Company to succeed. If the Company fails to protect, develop and secure proprietary information and intellectual property, the value of the Company could be impaired.

If the Company is unable to adapt to the rapid technological change in its industry, the Company will not remain competitive and its business will suffer.

The Company's market is characterized by rapidly changing technologies and evolving industry standards. The recent growth of the Internet and intense competition in the industry exacerbate these market characteristics. The Company's future success will depend on the Company's ability to adapt to rapidly changing technologies by continually improving the features and reliability of its products. The Company may experience difficulties that could delay or prevent the successful introduction or marketing of new products and services. In addition, new enhancements must achieve significant market acceptance. The Company could also incur substantial costs if the Company needs to modify its service or infrastructures or adapt its technology to respond to these changes.

The title insurance industry is subject to natural fluctuation.

The title business is seasonal for purchase transactions and depends largely on interest rates in connection with refinance transactions. It is likely that the Company will be subject to these same types of performance fluctuations. The real estate market is subject to fluctuation and is currently in a state of decline. The condition of the real estate market and economic conditions in general will strongly affect the viability of the Company's plans.

Risks Related To Regulations

The Company's failure to comply with existing regulations and future regulations could subject the Company to penalties.

The Company will provide products and services in multiple jurisdictions. Any failure of the Company to comply with existing regulations or regulations adopted in the future in those jurisdictions could subject the Company to penalties. Compliance matters could also increase the Company's costs and affect the Company's ability to meet its projections. The Company will assess regulations and requirements of certain jurisdictions for its products and may need to retain outside experts in order to ensure compliance. While the Company does not believe that its current structure will require it to obtain insurance licenses or other types of licenses, it is possible that state insurance commissions would take an alternate view, which could subject the Company to penalties and fines and require the Company to go through the costly and time-consuming licensing application process in each such jurisdiction which takes the position that the Company must hold an insurance license therein.

Risks Related To Customers

The Company's products are not yet proven with customers.

Until the Company has finished developing its products, there is uncertainty regarding the products' acceptability to customers and as a result, their viability within the customers' sales channels. In the event that acceptance is delayed, or in the event that customers promote competitive products, the Company would be seriously harmed.

**Risks Related To The Offering And
The Purchase and Ownership of Stock**

The Company will hold subscription funds in escrow during the Offering Period which may extend to September 30, 2008.

Subscription funds submitted by subscribers will be held at Charter One Bank in an escrow account by Synergy Law Group, LLC, the Company's escrow agent, during the Offering Period which expires on September 30, 2008 unless earlier terminated by the Company. During such time, subscribers will have no right to the issuance of the shares for which they have subscribed. If the Company fails to receive subscriptions for at least the Minimum Offering Amount or terminates or withdraws the Offering for any reason or if the subscriber's subscription is rejected in whole or in part for any reason, subscription funds will be returned to subscribers without any interest earned on the funds.

The Offering Price of the Shares is arbitrary.

The price of the Shares has been determined arbitrarily by the Company and bears no relationship to the Company's assets, book value, potential earnings or any other recognized criteria of value.

The Company has a lack of dividend payments.

The Company has no plans to pay any dividends in the foreseeable future.

Certain Company actions and the interests of stockholders may differ.

The voting control of the Company could discourage others from initiating a potential merger, takeover or another change of control transaction that could be beneficial to stockholders. As a result, the value of stock could be harmed. Purchasers should be familiar with the equity breakdowns among stockholders of the Company.

The Company's management team will have broad discretion over the use of proceeds.

The Company's management will retain broad discretion as to the allocation of the proceeds of this Offering, and the Company may not be able to invest these proceeds to yield a significant return.

Purchasers will experience immediate and substantial book value dilution.

The price of the Shares offered hereunder is expected to be substantially higher than the net tangible book value of each outstanding share of stock. Investors who purchase Shares in this Offering will suffer immediate and substantial dilution.

The Company may be subject to rights of preferred stockholders including mandatory redemption.

At some point in the future, the Company may authorize and issue preferred stock. The rights attached to preferred shares could affect the Company's ability to operate, which could force the Company to seek other financing. Such financing may not be available on commercially reasonable terms or at all and could cause substantial dilution to existing stockholders.

Our Common Stock may be subject to "penny stock" rules which may be detrimental to investors.

The SEC has adopted regulations which generally define "penny stock" to be any equity security that has a market price (as defined) of less than \$5.00 per share or an exercise price of less than \$5.00 per share. Such securities are subject to rules that impose additional sales practice requirements on broker-dealers who sell them. For transactions covered by these rules, the broker-dealer must make a special suitability determination for the purchaser of such securities and have received the purchaser's written consent to the transaction prior to the purchase. Additionally, for any transaction involving a penny stock, unless exempt, the rules require the delivery, prior to the transaction, of a disclosure schedule prepared by the SEC relating to the penny stock market. The broker-dealer also must disclose the commissions payable to both the broker-dealer and the registered representative, current quotations for the securities and, if the broker-dealer is the sole market-maker, the broker-dealer must disclose this fact and the broker-dealer's presumed control over the market. Finally, among other requirements, monthly statements must be sent disclosing recent price information for the penny stock held in the account and information on the limited market in penny stocks. As the Shares immediately following this Offering will likely be subject to such penny stock rules, purchasers in this Offering will in all likelihood find it more difficult to sell their Shares in the secondary market.

We have the right to issue up to 75,000,000 shares of preferred stock, which may adversely affect the voting power of the holders of other of our securities and may deter hostile takeovers or delay changes in management control.

We may issue up to 75,000,000 shares of our preferred stock from time to time in one or more series, and with such rights, preferences and designations as our board of directors may determine from time to time. To date, we have not issued any shares of preferred stock. Our board of directors is authorized to fix the dividend rights and terms, conversion rights, voting rights, redemption rights, liquidation preferences and other rights and restrictions relating to any series of our preferred stock. Issuances of shares of preferred stock, while providing flexibility in connection with possible financings, acquisitions and other corporate purposes, could, among other things, adversely affect the voting power of the holders of our common stock and may, under certain circumstances, have the effect of deterring hostile takeovers or delaying changes in management control.

Forward Looking Statements

This Prospectus contains projections and statements relating to Company that constitute "forward-looking statements." These forward-looking statements may be identified by the use of predictive, future-tense or forward-looking terminology, such as "intends," "believes," "anticipates," "expects," "estimates," "may," "will," or similar terms. Such statements speak only as of the date of such statement, and the Company undertakes no ongoing obligation to update such statements. These statements appear in a number of places in this Prospectus and include statements regarding the intent, belief or current expectations of the Company, and its respective directors, officers or advisors with respect to, among other things: (1) trends affecting the Company's financial condition, results of operations or future prospects, (2) the Company's business and growth strategies and (3) the Company's financing plans and forecasts. Potential investors are cautioned that any such forward-looking statements are not guarantees of future performance and involve significant risks and uncertainties, and that, should conditions change or should any one or more of the risks or uncertainties materialize or should any of the underlying assumptions of the Company prove incorrect, actual results may differ materially from those projected in the forward-looking statements as a result of various factors, some of which are unknown. The factors that could adversely affect the actual results and performance of the Company include, without limitation, the Company's inability to raise additional funds to support operations and capital expenditures, the Company's inability to effectively manage its growth, the Company's inability to achieve greater and broader market acceptance in existing and new market segments, the Company's inability to successfully compete against existing and future competitors, the Company's reliance on independent manufacturers and suppliers, disruptions in the supply chain, the Company's inability to protect its intellectual property, other factors described elsewhere in this Prospectus, or other reasons. Potential investors are urged to carefully consider such factors. All forward-looking statements attributable to the Company or persons acting on its behalf are expressly qualified in their entirety by the foregoing cautionary statements and the "Risk Factors" described herein.

Use of Proceeds

Assuming 900,000 Shares are subscribed for in this Offering, and after netting anticipated Offering expenses, the net proceeds from the sale of the Shares will be approximately \$188,800. If subscriptions are received for 200,000 shares, after netting anticipated Offering expenses, the net proceeds from the sale of the Shares will be approximately \$13,800. The Company intends to use the net proceeds from the Offering substantially for general corporate purposes primarily in the areas of marketing, advertising, promotion, acquiring relationships with title abstractors and title agencies and general working capital. In allocating the proceeds, the Company's highest priority will be to develop the product to a functional stage. After the product is functional, the Company's next priority will be to market, advertise and promote the product. The Company believes that receipt of only the minimum proceeds will be sufficient to develop a functional product. Receipt of the minimum proceeds will support a lesser marketing and product promotion campaign which could result in slower sales of the product. The Company anticipates that the momentum of marketing efforts within the community of title abstractors will be enhanced because of the nature of the title insurance industry. There tends to be significant and frequent communication in the community of title abstractors which would allow a means for exposure of the Company's product without a corresponding expenditure by the Company for marketing efforts. We believe these proceeds will be sufficient to fund our operations for a period of six months. Set forth below is the Company's proposed use of proceeds assuming the sale of all of the Shares offered hereunder:

Working Capital

The Company plans to hire employees with technical expertise to refine its products and services. Working capital will support personnel costs as well as the general administration and management of the Company's start-up phase.

Research and Development

The Company anticipates continuing its research and development efforts to enhance its sales and market position by developing an electronic central title starts repository. Proceeds of this Offering will support the Company's ongoing research and development efforts. Initially, the Company's primary focus will be to develop its products for entry into the market. After it sufficiently refines its products, the Company's principal area of concentration will shift to marketing and promotion of its products.

Marketing/Advertising/Promotion

The Company expects to explore the most advantageous means of marketing, advertising and promotion of the Company's products and services. The funds generated from this Offering will support the Company's marketing strategies. Proceeds in the Minimum Offering Amount will allow the Company to pursue marketing campaigns in limited markets. Proceeds in excess of the Minimum Offering Amount will permit the Company to expand the scope of promotional efforts for its products.

Because of the number and variability of factors that determine the use of the net proceeds from this Offering, we cannot assure you that the actual uses of the net proceeds from this Offering will not vary substantially from our currently planned uses. Pending use of the net proceeds from this Offering, we intend to invest the net proceeds from this Offering in money market accounts at insured institutions.

Determination of Offering Price

Prior to this Offering, there has been no market for our common stock. The Offering Price of the Shares offered hereunder was arbitrarily determined by the Company and bears no direct relationship to the value of our assets, book value, net worth, historical or prospective earnings, actual results of operations, trading price of our stock, or any other recognized criteria of value. The Offering Price of the Shares should not be considered as an indication of the actual or trading value of a share of our common stock.

Plan of Distribution

General

There is no public market for our common stock. Therefore, the current and potential market for our common stock is limited and the liquidity of our shares may be severely limited. To date, we have made no effort to obtain listing or quotation of our securities on a national stock exchange or association. We have not identified or approached any broker/dealers with regard to assisting us to apply for such listing. We are unable to estimate if or when we expect to undertake this endeavor. No market may ever develop for our common stock, or if developed, such market may not be sustained in the future. Accordingly, the Shares should be considered totally illiquid, which inhibits investors' ability to sell their Shares. The market price of the Shares of common stock is likely to be highly volatile and may be significantly affected by factors such as actual or anticipated fluctuations in the Company's operating results, announcements of technological innovations, new products and/or services or new contracts by the Company or its competitors, developments with respect to copyrights or proprietary rights, adoption of new accounting standards or regulatory requirements affecting the insurance business, general market conditions and other factors. In addition, the stock market from time to time experiences significant price and volume fluctuations that may adversely affect the market price for the Company's common stock.

The Offering

The Company is offering to sell a minimum of 200,000 and a maximum of 900,000 Shares pursuant to the terms of this Prospectus in a self-underwritten direct public offering, without any participation by underwriters or broker-dealers. The Offering Price is \$0.25 per Share. The Offering Period will begin on the date this registration statement is declared effective by the Securities and Exchange Commission and will expire on September 30, 2008. We may, within our sole discretion, terminate the Offering prior to the end of the Offering Period. No subscription will be accepted unless payment is received by September 30, 2008. The closing of the Offering and the disbursement of funds are conditioned upon our receipt of subscriptions aggregating no less than \$50,000, the Minimum Offering Amount. The minimum dollar amount of Shares that may be purchased by any subscriber is \$1,250, unless the Company waives this minimum dollar requirement.

Until the Company receives and accepts subscriptions for a minimum of \$50,000, all subscription funds will be held by the Company at Charter One Bank in an escrow account in the name of Synergy Law Group, LLC, as escrow agent. If subscriptions for at least \$50,000 have not been received before the expiration of the Offering Period, all subscription funds will be returned to the subscribers, without any interest earned on the funds. If an investor subscribes for at least \$1,250 and its subscription is accepted by Company, the subscription funds, together with any interest earned on the funds, will be drawn upon and used by the Company following the closing of the Offering.

The affiliates, officers, directors, employees and stockholders of the Company reserve the right at their option to purchase Shares, but all such purchases shall be without discount and at the full Offering Price per Share. Any such purchase will be counted in determining if the Minimum Offering Amount has been satisfied.

Shares will be sold through the efforts of the officers and director of the Company. There will be no participation by underwriters or broker-dealers. The Shares will be qualified or registered for sale under the "blue sky" laws of certain states. The states in which the Company currently plans to offer the Shares include California, Florida, Kansas, Missouri and Nevada.

Expenses of Offering

The Company will pay all of the costs and expenses in connection with the Offering, including but not limited to all expenses incurred to prepare, reproduce or print this Prospectus, legal expenses and other expenses incurred in qualifying the Offering for sale under federal securities laws and applicable state securities, or "blue sky," laws. It is estimated that the expenses of the Offering will not exceed \$36,200.

Penny Stock Regulation

The SEC has adopted regulations which generally define "penny stock" to be any equity security that has a market price (as defined) of less than \$5.00 per share or an exercise price of less than \$5.00 per share. Such securities are subject to rules that impose additional sales practice requirements on broker-dealers who sell them. For transactions covered by these rules, the broker-dealer must make a special suitability determination for the purchaser of such securities and have received the purchaser's written consent to the transaction prior to the purchase. Additionally, for any transaction involving a penny stock, unless exempt, the rules require the delivery, prior to the transaction, of a disclosure schedule prepared by the SEC relating to the penny stock market. The broker-dealer also must disclose the commissions payable to both the broker-dealer and the registered representative, current quotations for the securities and, if the broker-dealer is the sole market-maker, the broker-dealer must disclose this fact and the broker-dealer's presumed control over the market. Finally, among other requirements, monthly statements must be sent disclosing recent price information for the penny stock held in the account and information on the limited market in penny stocks. As the Shares immediately following this Offering will likely be subject to such penny stock rules, purchasers in this Offering will in all likelihood find it more difficult to sell their Shares in the secondary market.

Interests of Named Experts and Counsel

No expert or counsel named in this prospectus as having prepared or certified any part of this prospectus or having given an opinion upon the validity of the securities being registered or upon other legal matters in connection with the registration or offering of the Shares was employed on a contingency basis, or had, or is to receive, in connection with the Offering, a substantial interest, direct or indirect, in the Company, nor was any such person connected with the Company as a promoter, managing or principal underwriter, voting trustee, director, officer or employee.

Disclosure of Commission Position on Indemnification for Securities Act Liabilities

Our Articles of Incorporation and By-Laws provide for the indemnification of Company officers and directors in regard to their carrying out the duties of their offices. We have been advised that in the opinion of the SEC indemnification for liabilities arising under the Securities Act is against public policy as expressed in the Securities Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than payment by the Company of expenses incurred or paid by a director, officer or controlling person of the Company in the successful defense of any action, suit or proceeding) is asserted by one of our directors, officers or controlling persons in connection with the securities being registered, we will, unless in the opinion of our legal counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by us is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.

Description of Business

Company Overview

Title Starts Online, Inc. is a corporation, incorporated in the State of Nevada on November 13, 2007. The Company's principal offices are currently located at 7007 College Boulevard, Suite 270, Overland Park, KS 66211. Our telephone number there is 913.832.0072. Our fax number is 913.747.3001. All operations, from administration to product development, take place at this location. The Company occupies space within a customer facility owned by our President and Chief Executive Officer, Mark DeFoor, for which it currently pays no rent. There is no obligation for or guarantee that this arrangement will continue in the future.

The Company is in its development stage with no current revenues to date. The majority of the activities to date have revolved around defining requirements from residential title abstractors in the Kansas City area to determine the value proposition of a consolidated title start website business. In the title insurance business, abstractors are required to research any and all encumbrances on specific properties which are in the process of being refinanced or sold. This search is completed by merging data from a variety of sources, some online and some in log books physically maintained by local governmental entities and private production plants. The research results are then compiled into a commitment of title insurance which is submitted to the entity requesting the information.

Organizational Structure

Our President and Chief Executive Officer, Mark DeFoor, is the only individual currently participating in the Company's start-up activities. At present, he is contributing less than 10 hours per week to handle the operational business functions including corporate administration and development responsibility.

Upon the successful acquisition of funding or an increase in sales, we plan to expand the current staff by adding employees with technical expertise. We anticipate the cost of each of these technical employment positions to be approximately \$80,000.00 per year, and we may choose to compensate these employees with consideration other than cash, such as shares of common stock or options to purchase shares of common stock.

Assuming the availability of funds from this Offering or future sales of products, we expect to hire employees to fill the following positions:

- DBA – Database Administrator
- .Net Systems Developer
- Document Management Specialist

We would also like to retain commissioned sales representatives or partner with national insurance underwriters to cross-sell our services. As sales increase, we will be in a position to add customer service representatives to handle inbound calls, handle setup, and assist in operational troubleshooting.

Products and Services

The mission of the Company is to provide fast and reliable title starts to abstractors of small and large title agencies and underwriters.

The Company intends to develop a central repository for title starts and plans to deliver two categories of products – title starts and a title search template – along with a tips and tools area via the Company’s website. The website will have the functionality to manage new title search findings based on unique user identification to facilitate order processing, to offer remote storage and minimize redundant data entry. Users will also have the ability to shop for existing title starts and utilize innovative search techniques to expedite their search.

The existing inventory of title starts will be indexed by multiple categories. This database-driven approach will allow users the ability to search by a number of separate of variables including addresses, names and/or property legal descriptions. The Company will not store any nonpublic information such as social security numbers or dates of birth on the website.

Users will play a unique role in the population of the data on the Company website. As a user places a new title start online, that user will be able to access one of the existing starts placed by another user. Users will then have the capability of ranking the accuracy and completeness of another user’s search.

The Company will use a ranking system for users similar to the ranking system used for sellers on e-bay. Abstractors will be ranked by their peers as to the completeness and accuracy of their searches. If the ranking of an abstractor falls below our pre-determined acceptance level, they will have a “restricted” ranking which will alert purchasers to the quality of the title start requested from a “restricted” user.

Startup and Plan of Operation

The Data Model (Database back-end which houses the physical data logically for efficient access) has entered its second stage of development. Tables within the database have been completed and the relationships between those tables have been connected to ensure data integrity. We have made arrangements for an advisory panel of front line abstractors to test the Data Model to test the primary data components. This proof of concept at this stage will allow for a more efficient development phase of version I of the GUI interface.

The GUI (Graphical User Interface), the portion of the web application which is viewable by the public, is approximately 25% complete. Testing on the GUI interface will begin with a group of title abstractors who have agreed to volunteer their time to participate in a focus group to ensure the functionality and usability of the application. Alterations stemming from that focus group will begin with the data model and follow through to the GUI interface. The GUI design is pending approval of the Data Model with the advisory panel/focus group. We are planning two separate interfaces for the initial launch. The first is the information entry screen which will give abstractors at the plant the ability to upload and utilize a standard process to search title. The second will be a search engine which will give the abstractors the ability to access property information.

Over time, we see a third component to the system. This final component will allow imports from industry standard software through an easy-to-use interface. This component may need to be non-standard as each import would require a small amount of mapping to ensure that the load would match our Data Model. If we are successful in acquiring a large, national agency or underwriter as a business partner, we will elevate the priority of the development of this component.

Sales Strategies

We are currently in the development stage of sales strategies. Initially, it appears that the most cost-effective way to generate sales will be to direct as many users as possible to the Company’s website. The site should be developed in a manner which would allow screens to be exported to media for distribution.

Technology / Platform

The web real estate of titlestarts.com is currently being developed utilizing the following products offered remotely by godaddy.com:

Database: SQLServer
GUI: Microsofts .net framework

Both products run on the Microsoft's Server platform.

Godaddy.com is also hosting the Company's email services and storage of information.

Future Products and Services

As the use of the website grows, the repository of information will become increasingly valuable and, in turn, marketable. Real estate property-related entities, such as property and casualty insurers, home improvement businesses and pest control companies, will be able to see what starts have been viewed and, therefore, ascertain the identity of the properties being transferred.

We also see a cross-marketing potential with the American Land Title Association wherein the website could provide continuing education to abstractor members who use the product. The Company website could easily provide an online tutorial on proper search methods which would promote good practices and which could potentially reduce claims against agencies and underwriters.

Market Needs

Abstractors, also known as searchers, spend a significant portion of their time searching paper documents in local county offices or production plants. Production plants are repositories for real estate property records where plant members have the ability to view information. These production plants are expensive to maintain and are used exclusively by medium or large title agencies and underwriters. The Company intends to offer to small and large title agencies and underwriters electronic access to the same information which is available at production plants. This will allow all abstractors the ability to acquire title starts on a transaction fee basis.

An electronic central title start repository offers the potential for an enormous reduction in the time involved in research by abstractors. The online repository would allow the work of an already researched property to be reutilized for a small transaction fee.

Market Trends

Almost every insurance agency and underwriter in the title industry is intensely interested in the developments in and benefits of technological advances in the industry. These companies are developing brand specific applications to speed the delivery of title commitments to market. While they are spending tremendous amount of time and money on these systems, the systems themselves are not benefiting the front line abstractors.

It is our thought that the future will bring a consolidation of information across agencies and underwriters. Such a vehicle does not currently exist, and the Company hopes to be in a position to offer a central repository of property information to all abstractors eliminating travel and search time in many areas.

Market Growth

Business in all aspects of the real estate industry has constricted over the past year. Mortgage applications have declined, and the ability of the mortgage professionals to place those applications has also declined. Most mortgage lenders have either closed or tightened the guild lines associated with placing the loans.

Title Starts Online, Inc can utilize this time to create, implement and market our solution. The Company hopes that when an upswing in the real estate market occurs, it will be in a position to capture market share.

Competition

The title industry does not currently have a public online resource for title starts. Information is fragmented between legacy log books within local county records and company records within a variety of insurance agencies and underwriters.

The primary competition will be our customers themselves. As a title insurance agency searches a property, the "title start" or searched information is saved within a customer's file. This record can be either a physical paper file or an image of the documents stored electronically. If, by chance, a title company is asked to research the property again, then the old customer file is opened and the title start will be utilized. In most cases, customers are not in the position of having multiple searches on the same property.

Some title agencies currently have an internal system which will access county records remotely and import them into their system. This system requests new searches from the county each time a property is searched. A system of this type would require data mapping for every county in the United States which is currently web enabled.

Management's Discussion and Analysis or Plan of Operation

The following discussion of our financial condition and plan of operation should be read in conjunction with the Company's financial statements, the notes to those statements and the information included elsewhere in this prospectus. This discussion includes forward-looking statements that involve risks and uncertainties. As a result of many factors, such as those set forth under "*Risk Factors*" and elsewhere in this prospectus, our actual results may differ materially from those anticipated in these forward-looking statements.

Overview

The Company plans to develop its business in three stages: (1) Ensuring market demand through concentrated research and analysis conducted with a group of title abstractors who have volunteered their time to participate in a focus group; (2) Ensuring usability and functionality of the GUI interface by testing the developing product in focus group settings in all phases of product development; and (3) Utilizing a grass roots effort among title abstractors to propel the product into use during the initial phases of the business model. Title abstractors are our target market for the Company's products. Input from title abstractors during the development phase and introduction of the products to title abstractors will enhance the likelihood of the usability of the products and validate support from the commercial consumer. In the event that the Minimum Offering Amount is raised in this Offering, the proceeds received will provide the means for the Company to continue testing of its theories and products and allow for limited marketing. If the Company raises the Maximum Offering Amount, those proceeds will be used for the same purposes, but the Company will be able to proceed with product development at a faster pace and move ahead with a broader promotional campaign.

Plan of Operation

We are a start-up company and have not yet generated or realized any revenues from our business operations.

Limited Operating History; Need for Additional Capital

There is no historical financial information about us upon which to base an evaluation of our performance. We are in the start-up phase of development, have not generated any revenues from operations and cannot guarantee we will be successful in our business operations.

Liquidity and Capital Resources

We are attempting to raise money from this Offering to generate cash to begin operations. As of December 31, 2007, our total assets were \$18,391, and our total liabilities were \$17,091. As of March 31, 2008, our total assets were \$30,442, and our total liabilities were \$30,062.

The Company has no firm cash commitments for capital expenditures. The Company's anticipated capital requirements are modest in part due to characteristics inherent to the title starts industry which relies on existing repositories of title information. The Company will use godaddy.com for website hosting and has no associated infrastructure cost. The Company expects that the minimum proceeds from this Offering will be sufficient to support its business plan for twelve months. If the Company receives proceeds in excess of the Minimum Offering Amount, the pace at which the Company can pursue its business plan will be accelerated. Initially, the Company anticipates conducting marketing efforts through the use of outside sales representatives on a commission basis. If it receives only minimum proceeds, the Company will limit the number of markets it can target in initial promotional product campaigns. Although unlikely because the Company does not anticipate an imminent expenditure of funds, the Company may fulfill capital needs by borrowing funds from Mark DeFoor, currently the Company's sole shareholder. Mr. DeFoor has made a firm commitment to loan up to \$25,000 to the Company on an interim basis pending closing of the Offering.

Important Assumptions

The recent downturn in the mortgage refinance market has significantly reduced the number of transactions we believe will be able to be performed. Although the numbers of transactions are not expected to be as high as in recent years, the quantity of companies requiring our product will also decrease. This reduction in the number of companies in the market will make it easier for market penetration and standardization of data inputs.

Description of Property

The Company owns no real estate. Title Starts Online, Inc. is currently utilizing space within a customer facility in Overland Park, KS. The facility is owned by our President and Chief Executive Officer, Mark DeFoor, and the Company presently pays no rent to occupy the space. There is no obligation for or guarantee that this arrangement will continue in the future.

The website is co-located with www.godaddy.com to insure favorable service times while offering the flexibility of increasing data storage and bandwidth without the delay of acquisition and installation of owned services. When revenues and/or raised capital allows, a development environment will be created within the physical location to speed access. Long term, the Chief Technology Officer will make a determination as to the operational location of the production website.

Experts

The financial statements of Title Starts Online, Inc. as of December 31, 2007 and for the period from November 13, 2007 (inception) through December 31, 2007, included in this Registration Statement have been audited by Schumacher & Associates, Inc., independent registered public accounting firm, and have been so included in reliance upon the report of Schumacher & Associates, Inc. given on the authority of such firm as experts in accounting and auditing.

Certain Relationships and Related Transactions

Since inception, the following transactions were entered into with our shareholders.

Our sole shareholder, Mark DeFoor, acquired his shares with the intent to hold the shares for investment purposes and not with a view to further resale or distribution, except as permitted under exemptions from registration requirements under applicable securities laws.

The certificate was issued with a restrictive legend with respect to the issuance of securities pursuant to exemptions from registration requirements under the Securities Act.

Our sole shareholder, Mark DeFoor, made a firm commitment to loan up to \$25,000 to the Company as needed to aid development and start-up of Company operations pending receipt of proceeds from this Offering if a critical need arises for the expenditure of funds prior to Closing. Any such loan will be made on commercially reasonable terms and will be documented by a promissory note.

Market for Common Equity and Related Stockholder Matters

No Public Market for Common Stock

There is no public market for our common stock. Therefore, the current and potential market for our common stock is limited and the liquidity of our shares may be severely limited. To date, we have made no effort to obtain listing or quotation of our securities on a national stock exchange or association. We have not identified or approached any broker/dealers with regard to assisting us to apply for such listing. We are unable to estimate if or when we expect to undertake this endeavor. No market may ever develop for our common stock, or if developed, may not be sustained in the future. Accordingly, our shares should be considered totally illiquid, which inhibits investors' ability to sell their Shares. The market price of the Shares of common stock is likely to be highly volatile and may be significantly affected by factors such as actual or anticipated fluctuations in the Company's operating results, announcements of technological innovations, new products and/or services or new contracts by the Company or its competitors, developments with respect to copyrights or proprietary rights, adoption of new accounting standards or regulatory requirements affecting the insurance business, general market conditions and other factors. In addition, the stock market from time to time experiences significant price and volume fluctuations that may adversely affect the market price for the Company's common stock.

Shareholders of Our Common Shares

As of the date of this prospectus, we have one shareholder of record.

Rule 144 Shares

There are currently no outstanding warrants for the purchase of shares of common stock and no shares of common stock reserved under any employee stock option plans. As of the date of this prospectus, 3,100,000 shares of common stock are issued and outstanding. There currently are no shares of common stock or common stock equivalents which can be resold in the public market in reliance upon the safe harbor provisions of Rule 144, as promulgated under the Securities Act of 1933.

Upon the date this Registration Statement becomes effective, a total of 900,000 shares of our common stock will become available for sale to the public. The 3,100,000 shares of common stock outstanding as of the date of this prospectus are considered "restricted securities" because they were issued in reliance upon an exemption from the registration requirements of the Securities Act and not in connection with a public offering. Pursuant to Rule 144 under the Securities Act, at such time as the Company has become a reporting issuer under Section 13 or 15(d) of the Securities Exchange Act of 1934, as amended, these restricted shares will become available for resale to the public at the rate of one percent (1%) of total issued and outstanding shares of the Company during a three-month period. In general, under Rule 144, as amended and effective February 15, 2008, an affiliate of a reporting company may resell restricted securities after a six-month holding period, subject to the current public information requirements, volume limitations, manner of sale requirements and notice of proposed sale requirements.

As of the date of this prospectus, one person, who is an affiliate, holds 100% of our outstanding shares of common stock.

Stock Option Grants

To date, we have not granted any stock options.

Registration Rights

We have not granted registration rights to any holder of shares of our common stock.

Dividends

There are no restrictions in our Articles of Incorporation or By-Laws that prevent us from declaring dividends. The Nevada Revised Statutes, however, do prohibit us from declaring dividends where, after giving effect to the distribution of the dividend:

1. We would not be able to pay our debts as they become due in the usual course of business; or
2. Our total assets would be less than the sum of our total liabilities plus the amount that would be needed, if the Company were to be dissolved at the time of the distribution, to satisfy the preferential rights upon dissolution of shareholders whose preferential rights are superior to those receiving the distribution.

Item 24. Indemnification of Directors and Officers

The Company's directors and executive officers are indemnified as provided by the Nevada Revised Statutes and its By-Laws. These provisions state that certain persons (hereinafter called "Indemnitees") may be indemnified by a Nevada corporation pursuant to the provisions of applicable law, namely, any person (or the heirs, executors or administrators of such person) who was or is a party or is threatened to be made a party to any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative, by reason of the fact that such person is or was a director, officer, employee or agent of such corporation, or is or was serving at the request of such corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise. The Company will indemnify the Indemnitees in each and every situation where the Company is obligated to make such indemnification pursuant to the aforesaid statutory provisions. The Company will also indemnify the Indemnitees in each and every situation where, under the aforesaid statutory provisions, the Company is not obligated, but is nevertheless permitted or empowered, to make such indemnification. Before making such indemnification with respect to any situation covered under the foregoing sentence, the Company will make a determination as to whether each Indemnitee acted in good faith and in a manner such Indemnitee reasonably believed to be in or not opposed to the best interests of the Company, and, in the case of any criminal action or proceeding, had no reasonable cause to believe that such Indemnitee's conduct was unlawful. No such indemnification shall be made (where not required by statute) unless it is determined that such Indemnitee acted in good faith and in a manner such Indemnitee reasonably believed to be in or not opposed to the best interests of the Company, and, in the case of any criminal action or proceeding, had no reasonable cause to believe that such Indemnitee's conduct was unlawful.

We have been advised that in the opinion of the SEC indemnification for liabilities arising under the Securities Act is against public policy as expressed in the Securities Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than payment by the Company of expenses incurred or paid by a director, officer or controlling person of the Company in the successful defense of any action, suit or proceeding) is asserted by one of our directors, officers or controlling persons in connection with the securities being registered, we will, unless in the opinion of our legal counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by us is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.

Item 25. Other Expenses of Issuance and Distribution

The following table sets forth all estimated costs and expenses payable by the Company in connection with the Offering for the securities included in this registration statement:

SEC registration fee	\$ 9.00
Blue Sky fees and expenses	\$ 500.00

Item 28. Undertakings

We hereby undertake:

1. To file, during any period in which offers or sales are being made, a post-effective amendment to this registration statement:

(i) To include any prospectus required by Section 10(a)(3) of the Securities Act of 1933.

(ii) To reflect in the prospectus any facts or events arising after the effective date of the Registration Statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information in the Registration Statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the Commission pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than a 20 percent change in the maximum aggregate offering price set forth in the "Calculation of Registration Fee" table in the effective Registration Statement; and

(iii) To include any additional or changed material information on the plan of distribution.

2. That, for the purpose of determining any liability under the Securities Act, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time to be the initial bona fide offering thereof.

3. To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.

4. Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers and controlling persons of the registrant pursuant to the foregoing provisions, or otherwise, we have been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the Registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, we will, unless in the opinion of our counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.

5. For determining any liability under the Securities Act of 1933:

(i) we shall treat the information omitted from the form of prospectus filed as part of this registration statement in reliance upon Rule 430A and contained in a form of prospectus filed by us under Rule 424(b)(1) or (4) or 497(h) under the Securities Act as part of this registration statement as of the time the Commission declared it effective. For determining any liability under the Securities Act of 1933, we shall treat each post-effective amendment that contains a form of prospectus as a new registration statement for the securities offered in the registration statement, and that offering of the securities at that time as the initial bona fide offering of those securities.

(ii) we shall treat each prospectus filed by us pursuant to Rule 424(b)(3) as part of the registration statement as of the date the filed prospectus was deemed part of and included in the registration statement. Each prospectus required to be filed pursuant to Rule 424(b)(2), (b)(5), or (b)(7) as part of a registration statement in reliance on rule 430B relating to an offering made pursuant to Rule 415(a)(1)(i), (vii), or (x) for the purpose of providing the information required by section 10(a) of the Securities Act shall be deemed to be part of and included in the registration statement as of the earlier of the date such form of prospectus is first used after effectiveness or the date of the first contract of sale of securities in the offering described in the prospectus. As provided in Rule 430B, for liability purposes of the issuer and any person that is at that date an underwriter, such date shall be deemed to be a new effective date of the registration statement relating to the securities in the registration statement to which that prospectus relates, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof. Provided, however, that no statement made in a registration statement or prospectus that is part of the registration statement or made in a document incorporated or deemed incorporated by reference into the registration statement or prospectus that is part of the registration statement will, as to a purchaser with a time of contract of sale prior to such effective date, supersede or modify any statement that was made in the registration statement or prospectus that was part of the registration statement or made in any such document immediately prior to such effective date; or

(iii) we shall treat each prospectus filed pursuant to Rule 424 (b) as part of a registration statement relating to an offering, other than registration statement relying on Rule 430B or other than prospectuses filed in reliance on rule 430A, shall be deemed to be part of and included in the registration statement as of the date it is first used after effectiveness. Provided, however, that no statement made in a registration statement or prospectus that is part of the registration statement or made in a document incorporated or deemed incorporated by reference into the registration statement or prospectus that is part of the registration statement will, as to a purchaser with a time of contract of sale prior to such first use, supersede or modify any statement that was made in the registration statement or prospectus that was part of the registration statement or made in any such document immediately prior to such date of first use.

SUBSCRIPTION AGREEMENT

THIS SUBSCRIPTION AGREEMENT ("Agreement") made as of this __ day of _____, 2008, by and among Title Starts Online, Inc., a Nevada corporation (the "Company"), and the undersigned subscriber of securities of the Company (the "Subscriber").

WHEREAS, the Company intends to obtain subscriptions for the purchase and sale, in an offering registered under the Securities Act of 1933, as amended (the "Act"), on Amendment No. 2 to Registration Statement on Form S-1/A (the "Registration Statement") filed with the Securities and Exchange Commission (the "Offering"), consisting of a minimum of 200,000 and a maximum of 900,000 shares of the Company's common stock, par value .001 (the "Shares"), on the terms and conditions as set forth in the prospectus (the "Prospectus") which is a part of the Company's Registration Statement, and the Subscriber desires to acquire that number of Shares set forth on the signature page hereof. This Agreement incorporates terms as defined by Title Starts Online, Inc.'s Registration Statement.

NOW, THEREFORE, for and in consideration of the promises and the mutual covenants hereinafter set forth, the parties hereto do hereby agree as follows:

1. Subscription Procedure

1.1 Subject to the terms and conditions set forth herein and in the Registration Statement, the Subscriber hereby subscribes for and agrees to purchase from the Company such number of Shares as is set forth upon the signature page hereof at a price of \$0.25 per Share (the "Purchase Price"). The Company agrees to sell such Shares to the Subscriber for the Purchase Price.

1.2 The subscription period will begin as of the date the Registration Statement is declared effective by the Securities and Exchange Commission ("SEC") and will terminate on September 30, 2008, unless terminated earlier by the Company in its sole and absolute discretion (the "Offering Period"). The Shares will be offered on a minimum/maximum basis as more particularly set forth in the Registration Statement. The minimum dollar amount of Shares that may be purchased by the Subscriber is \$1,250 unless the Company elects to waive the requirement. The consummation of the Offering is subject to the satisfaction of the closing conditions set forth in Section 5 of this Agreement.

1.3 The Purchase Price will be placed in escrow at Charter One Bank pursuant to an escrow agreement by and between the Company and its escrow agent, Synergy Law Group, LLC (the "Escrow Agreement"), and shall be paid over to the Company at the closing of the purchase of the Shares in the Offering pursuant to this Agreement (the "Closing").

1.4 The certificates for the Common Stock bearing the name of the Subscriber will be delivered by the Company no later than twenty (20) days following the Closing of the Offering. The Subscriber hereby authorizes and directs the Company to deliver the Shares to be issued to the Subscriber pursuant to this Agreement and delivered to the residential or business address indicated on the signature page hereof.

1.5 This executed Subscription Agreement shall be forwarded to:

Carol McMahan
Synergy Law Group, LLC
730 West Randolph Street
Suite 600
Chicago, IL 60661

1.6 The Purchase Price for the Shares purchased hereunder shall be paid by wire transfer to Charter One Bank in an amount equal to the total purchase price for the number of Shares you desire to purchase, as per the following instructions:

All wire transfers should be accompanied by a facsimile notification of the wire to the attention of Carol McMahan at 312.454.0261.

1.7 The Company may, in its sole discretion, reject any subscription, in whole or in part, or terminate or withdraw the Offering in its entirety at any time prior to Closing.

2. Representations and Covenants of Subscriber.

2.1 The Subscriber recognizes that the purchase of Shares involves a high degree of risk in that (i) the Company will likely need additional capital but has no assurance of additional necessary capital; (ii) an investment in the Company is highly speculative and only investors who can afford the loss of their entire investment should consider investing in the Company and the Shares; (iii) an investor may not be able to liquidate his or her investment; (iv) there is currently no market for the Shares; (v) an investor could sustain the loss of his or her entire investment; (vi) the report of the independent registered public accounting firm which audited the Company's financial statements for the year ended December 31, 2007 contains an opinion that there is substantial doubt about the Company's ability to continue as a going concern because the Company has no business operations, has negative working capital and minimal stockholders' equity; and (vii) the Company is and will be subject to numerous other risks and uncertainties, including without limitation, significant and material risks relating to the Company's business, and the industries and markets in which the Company will compete, as well as risks associated with the Offering, and the other transactions contemplated herein, in the Registration Statement, all as more fully set forth herein and in the Registration Statement.

2.2 The Subscriber represents that he or she is able to bear the economic risk of an investment in the Shares.

2.3 The Subscriber acknowledges that he or she has reviewed all of the documents furnished or made available by the Company to evaluate the merits and risks of such an investment and that he or she recognizes the highly speculative nature of this investment.

3.7 Compliance with Law. Neither the Company nor any of its respective subsidiaries is in violation of or has any liability under any statute, law, rule, regulation, ordinance, decision or order of any governmental agency or body or any court, domestic or foreign, except where such violation or liability would not individually or in the aggregate have a Material Adverse Effect and to the knowledge of the Company there is no pending investigation that would reasonably be expected to lead to such a claim.

**Re: Title Starts Online, Inc.
Second Amended Registration Statement on Form S-1
Filed July 1, 2008
File No. 333-149036**

Dear Mr. Shuman:

This letter is in response to your comment letter dated June 3, 2008 to Mark DeFoor, President and CEO of Title Starts Online, Inc. (the “Company”) regarding the Company’s Pre-Effective Amendment No. 1 to Form SB-2 Registration Statement on Form S-1/A filed May 5, 2008, a copy of which is attached for your convenience. Attached hereto is a marked copy of the Company’s Pre-Effective Amendment No. 2 to Registration Statement on Form S-1/A (the “Registration Statement”), a copy of the Escrow Agreement (Exhibit 10.1) and a marked copy of the Subscription Agreement (Exhibit 10.2), all of which have been filed electronically on EDGAR along with this letter. These revisions incorporate the changes made in response to your comments which are itemized below.

General

1. In view of the prohibitions contained in Rule 10b-9 of the Securities Exchange Act of 1934, we have revised the Registration Statement to provide that the Offering Period will expire on September 30, 2008. This change appears on the cover page, the prospectus summary and the Offering section under Plan of Distribution. In addition, we have added a risk factor disclosing that subscription funds may be held in the escrow account through September 30, 2008, the revised date of the expiration of the Offering Period. This additional risk factor appears as the first risk factor in the section entitled Risks Related to the Offering.

2. We have revised the Registration Statement to present disclosures which address both the minimum and maximum offering amounts. The revisions appear on the cover page, the prospectus summary, Use of Proceeds, Marketing/Advertising/Promotion, the Offering section under Plan of Distribution, Beneficial Ownership (as specifically referenced in your comment letter) and the Overview and Liquidity sections under Management’s Discussion.

730 W. Randolph St. - 6th Floor - Chicago, IL 60661 - p: 312.454.0015 - f: 312.454.0261

Cover Page

3. Synergy Law Group, LLC will serve as the Company's escrow agent. Subscription funds received by Synergy Law Group, LLC will be held at Charter One Bank. The revised cover page, prospectus summary, the first risk factor under Risks Related to the Offering, the Offering and Subscription Procedure sections under Plan of Distribution now disclose that payments for share subscriptions will be held at Charter One Bank in an escrow account in the name of Synergy Law Group, LLC as escrow agent for the Company. Additionally, as noted below, the escrow agreement has been added as Exhibit No. 10.1.

Prospectus Summary, page 4

Overview, page 4

4. The revised Overview now discloses that the report of the Company's independent public accountant includes a paragraph that expresses substantial doubt concerning the Company's ability to continue as a going concern opinion. We have also added a risk factor regarding the fact that the Company has been issued a going concern opinion which appears as the first risk factor under Risks Related to our Company.

The Company, page 4

5. The Company anticipates that title abstractors will comprise a significant portion of its investors. The Company section now explains that the Company's registration of its shares is intended as an incentive to obtain potential investors.

The Offering, page 5

6. The Offering section in the prospectus summary and the Offering section under the Plan of Distribution now include a clarification that subscription amounts will be counted towards the minimum subscription amount only if payment is received prior to the end of the offering period which is now September 30, 2008. We have revised the Registration Statement to provide for wire transfers as the only form of payment for subscriptions which eliminates any issue with respect to the period required for checks to clear the banking system within the Offering Period.

Risk Factors, page 6

7. Since Section 27A of the Securities Act of 1933 is not applicable to the Company because it is not subject to the reporting requirements of the Securities and Exchange Act of 1934 (Paragraph (a)(1)) and because of the specific exclusion for an initial public offering (Paragraph (b)(2)(D)), we have deleted reference to the applicability of the Securities Act of 1933.

730 W. Randolph St. - 6th Floor - Chicago, IL 60661 - p: 312.454.0015 - f: 312.454.0261

Use of Proceeds, page 11

8. We have now added the Company's order of priority with respect to the use of proceeds in the Use of Proceeds section, the Research and Development section and in the Overview of the Management's Discussion section. The Company anticipates that it will be able to fund operations for six months even without receiving maximum subscriptions and, therefore, has not added a risk factor to the contrary.

Plan of Distribution, page 12

9. During the Offering Period, subscription funds received from investors will be held by Synergy Law Group, LLC in an escrow account established at Charter One Bank. The revised Registration Statement clarifies this point on the cover page, in the Risk Factors and Subscription Procedures sections. Additionally, as noted above, the escrow agreement has been added as Exhibit 10.1.

Description of Business, page 16

10. In the Startup and Plan of Operation section of Description of Business and in the Overview of the Management's Discussion, the Company has expanded its discussion of its stage of development

Management's Discussion and Analysis or Plan of Operation, page 19

11. The Overview section now includes a more detailed description of the development of the Company's business and likewise discusses how its development will be affected in the event minimum and maximum subscriptions are received.

Liquidity and Capital Resources, page 19

12. In the Liquidity and Capital Resources section, the Company explains its need for minimal capital resources and the impact of receipt of the minimum and the maximum offering proceeds. The Company anticipates that even if only minimum subscriptions are received, it will be able to fund operations for 12 months and, therefore, has not included a discussion of additional capital needs and sources.

Certain Relationships and Related Party Transactions, page 20

13. In the Certain Relationships section as well as in Liquidity and Capital Resources, the Company clarifies Mr. DeFoor's commitment to grant a loan to the Company in the event the Company needs capital infusion prior to the Closing of the Offering.

Exhibits, page II-2

14. On June 30, 2008 the Company entered into an escrow agreement with Synergy Law Group, LLC to hold subscription funds at Charter One Bank. The escrow agreement has been added as Exhibit No. 10.1 in the exhibit list of the Registration Statement.

Attached hereto is a separate letter which requests, pursuant to Rule 461 of the Securities Act of 1933, acceleration of the effective date of the Registration Statement to August 1, 2008.

We trust that the Company's responses and revisions address the comments raised in your letter to the Company dated June 3, 2008. However, the Company will provide further information and make further revisions at your direction.

Very truly yours,
